Wellstream Health Risk Assessment

About Wellstream

Wellstream is an innovative and unique personal health risk assessment. Developed by experts who have more than 25 years experience in building nationally-recognized workplace wellness programs, Wellstream provides users with important health information regarding their health status and their adherence to preventive screening services.

Wellstream is extremely user-friendly as well as straightforward in its assessment and presentation of personal health information. Wellstream assesses major risk factors and lifestyle habits including: smoking, physical activity, nutrition, stress and a variety of other important biometric information.

One of the most affordable health risk appraisals available, Wellstream provides not only individual reports but aggregate reports as well. Wellstream is available both electronically and in hard copy format.

All information is meticulously managed in a HIPAA compliant manner.

About WELCOA

Based in Omaha, NE, WELCOA was founded in 1987 as a national non-profit membership organization dedicated to promoting healthier life styles for all Americans, especially through health promotion initiatives at the worksite. Specifically, WELCOA focuses on building Well Workplaces—

organizations that are dedicated to the health of their employees. The Well Workplace process provides business leaders and members with a structure or blue print to help their organizations build results-oriented wellness programs. In addition to helping organizations build structurally sound wellness programs, WELCOA responds to thousands of requests for information and materials by publishing a number of source books, a monthly newsletter read by approximately three million readers, an extensive line of brochures, as well as conducting numerous training seminars.
